

Helping Paycor Sellers Close More Deals

You know when... Manual Processes, Disconnected Systems, and slow Workflows frustrate HR and payroll teams? Paycor customers face challenges that waste time, cause errors, and delay critical tasks like payroll, onboarding, and PTO updates.

Well, we solved that: TAP Innovations automates these processes, helping your customers save time, reduce errors, and *get more value out of Paycor.*

Kenwal

Fixing Payroll Delays for Kenwal

Kenwal, a manufacturing company operating across 3 states with 2 FEINs, faced payroll delays and errors caused by manual processing of time punch data and incentive pay. HR teams struggled to apply shift-based pay rules and keep payroll accurate, wasting valuable time and effort.

TAP Innovations automated the process by pulling employee time punch and incentive data, applying the correct business rules, and mapping it directly into Paycor. Notifications were set up to confirm success or flag issues for review. The result? Payroll was accurate, completed on time, and manual data entry was eliminated, saving HR hours every payroll cycle.

] pexit [

Automating Onboarding for Pexit

Pexit, a growing business with over 500 employees, faced delays and errors caused by manual data entry between Paycor and Bamboo. HR teams spent too much time entering new hire information and updating employee records, which slowed down onboarding and created data inaccuracies.

TAP Innovations automated the process, ensuring new hires and updates synced instantly between systems. Alerts notified HR of any issues, keeping records accurate and up to date. The result? Onboarding became faster, errors were eliminated, and the HR team saved valuable time for higher-priority tasks.

Simplifying PTO Management for Carriage

Carriage, a company with employees in 2 states, struggled to manually track PTO accruals for milestones like 6 months and 1 year. The process caused payroll errors and extra work for HR teams.

TAP Innovations automated PTO updates by identifying employees at key milestones and updating Paycor before payroll deadlines. The result? Accurate PTO updates, on-time payroll, and less effort for HR teams.

Why Sales Teams Trust TAP Innovations

TAP Innovations helps Paycor customers:

- **Save Time:** Reduces manual work.
- **Improve Accuracy:** Eliminates costly mistakes.
- **Simplify Operations:** Keeps HR tasks on track.
- **Offer Predictable Costs:** Fixed pricing builds confidence.

With TAP Innovations, Paycor customers see results faster, and sales teams close more deals.
