

# The TAP RHIA MESS TEST

At TAP Innovations, we go beyond standard app and integration solutions and services for the mid-market by also offering unparalleled business and specific industry acumen, consulting, process flow optimization, and more; all of which are tailored and customized to each customer's unique needs.

## TAP 'RHIA' MESS TEST™.

In the restaurant, retail, and hospitality industries, businesses rely on a range of systems like Point of Sale (POS), HR, Accounting, Customer Management, and more. Unfortunately, many of these systems remain disconnected, creating gaps in data and processes. These gaps are often addressed using Manual Efforts and SpreadSheets, which lead to inefficiencies—or what we call a Big Ole 'MESS'.

Our Expert Consultants perform deep dives into business operations and technology landscapes and deliver amazing insights, solutions, and recommendations, and we call this process a **T**otal **E**valuation of **S**ystems and **T**echnology...aka, **The MESS TEST™**.

★ **WAIT!** There's more! This assessment is at **NO COST**. As a proud member of the Washington Hospitality Association, TAP is excited to offer this valuable service as a WHA member perk. While most companies charge upwards of \$10,000+ for similar evaluations, we provide it at no cost.

Whether you own or manage multiple restaurants, resorts, hotels, retail chains, or other businesses, we provide it at no cost as part of our mission to help your business thrive—MESS free.

## MESS TEST™ Deliverables.

So, what key deliverables come from TAP's amazing MESS TEST™?

Well, to begin with, TAP Engineers are well versed in your industry business flows, systems, and data, and we ensure you gain a comprehensive understanding of these, facilitating and identifying inefficiencies and manual processes with your business systems.

Our Sales Engineers excel in...

1. Capturing and documenting specific business requirements
2. Designing robust system solutions
3. Developing detailed project plans
4. Securing the best resources for the project(s)
5. Defining affordable pricing
6. Clearly outlining the amazing ROI and Value the project will achieve.

This meticulous approach guarantees well-executed projects and clear communication to exceed your expectations.

Our expertise in business operations and technology sets us apart, delivering tailored, effective results. Our customers consistently rate us **4.8** out of **5** for our efficiency, quality, and support.

Don't take our word for it - [See what Our Customers have to say!](#)
