

Rolling Dough Saves 1000+ Hours Annually with Amazing HR/Payroll to Panera iPOS Integration!

Because running a Panera Bread restaurant should be about delivering exceptional guest experiences. Not chasing time punch and tip data or fixing payroll mistakes.

Rolling Dough Enterprises, a Texas-based multi-location Panera Bread franchisee with 25 cafés and over 330 employees, was buried in manual employee data and payroll tasks. Managers were spending hours each week approving time punches, tracking tip data, re-entering employee information, and fixing errors.

There was no employee, time, or tip integration between the Panera iPOS (Point-of-Sale) and their HR/Payroll System (Paycor). No real-time data. No automation. Full of manual steps and frustration.

Well, **TAP SOLVED THAT** ...

TAP Saves RDE 15-20 Hrs/Payroll Cycle or 1000+ Hrs/Year!

"TAP has excellent customer service in a world where that is lacking these days.

That impression from our 2020 payroll conversion has lasted. we're circling back because we know the team will ease the pain again."

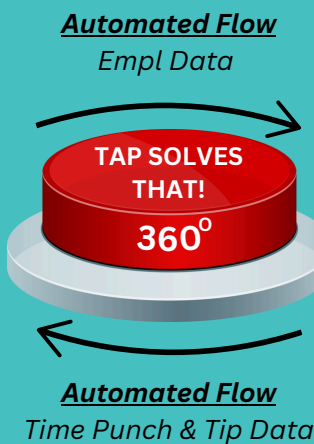

- Mikki Ahern,

RDE Financial Controller

TAP's POS+ Integrations for Restaurants

HR/Payroll System (Paycor)

POS System (iPOS)

	Implementation	Support/Maintenance
EE Data Integration	\$3,500	\$350 / Mo
