'Best of the Rest'
Other Common Repeatable Automation Solutions

You know when…A customer has another system that needs Employee, Time or other HCM data and they don't want to manually enter this data in their other systems? Well, TAP solves that by expertly integrating and automating Your company's HCM data with many other systems like Applicant Tracking Systems (ATS), Learning Management Systems (LMS), Time Tracking Systems, CRMs, Active Directory (AD), Background Check Systems, 401k/Benefit Management Systems, State Reporting Systems, and more. Don't walk away from a deal because a customer needs something that Your company system can't handle. Call TAP.
