Paired with our **Global "Gig Economy" People Model™**, TAP has delivered thousands of integrations for more than 600 customers across 70 industries, maintaining a 4.8 out of 5 Customer Satisfaction rating.

From HCM to Restaurant, Retail, & Hospitality, we've seen it all. We've refined every ingredient, like a Cajun Chef cooking The Perfect Gumbo:

- 7+ years of **Integration Experience**
- **HCM, Restaurant, Retail, & Hospitality** Expertise
- **70 Industries, 600+** Customers
- **4.8 / 5 CSAT**
- **Mid-Market** Focus
- Proven **Integrated Digital Toolbox™**
- **Global "Gig Economy" People Model™**
- Artificial Intelligence (AI) Lagniappe, "Something Extra"

That Lagniappe, our "Something Extra," is 12+ months of AI innovation that infuses intelligence into every integration.

When you mix those AMAZING Ingredients together, *Voila!*

You get **FlowIQ**, THE Enterprise Integration Platform built to help you **Work Smarter. Connect Anything. Automate Everything.**

The FlowIQ™ Story

TAP Innovations is proud to introduce **FlowIQ!** A result of **7+** years of tackling THE Toughest Integration Challenges across the world!

Across industries, we've seen the same story unfold...

Companies rely on core systems like HR, Finance, POS, CRM, & Reporting that simply don't talk to each other.

Teams jump between screens, re-key data, build spreadsheets, and create endless workarounds. The result? A costly, time-consuming **M.E.S.S.**

And that's exactly what TAP was built to solve.

Over the past 7 years, we've expanded **THE Integrated Digital Toolbox™**, a collection of reusable integrations, automations, transformation tools, and proven components that make connecting systems faster, smarter, and secure.

Who is FlowIQ For?

FlowIQ is built for organizations ready to eliminate integration chaos. Whether you're a single business or a partner managing hundreds of clients, FlowIQ scales with You.

What Makes FlowIQ Special?

Automated integrations are expensive, time-consuming, and difficult to manage. FlowIQ changes that, connecting systems like HR, Payroll, POS, Finance, & Custom Apps so you can *Work Smarter, Connect Anything, & Automate Everything* from one intelligent platform.

Integration Solutions

Individual Integration Products

Product Data Sets

Data Points

Integration Flows

1

- Employee First Name
- Employee Last Name
- Etc.

Flow

See how everything **FLows** together on the next page

See how everything in FlowIQ comes together in the **Visual Flow Canvas**. This canvas is an example of how **Integration Solutions**, **Integration Products**, **Product Data Sets**, and individual **Data Points** work in harmony to help any Customer or Partner *Work Smarter, Connect Anything, & Automate Everything!*

But Wait, There's More!

In addition, FlowIQ also includes a set of unique and powerful **Advanced Features** designed to enhance any Integration Solution:

 <p>One to One OR One to Many Flow Connections</p>	 <p>Unlimited Products for Integration Solutions</p>	 <p>New Products Added in Days</p>
 <p>Unlimited Data Transformation Logic</p>	 <p>Have Data Access? That's a Product.</p>	 <p>Scheduling/Triggering</p>

These capabilities give FlowIQ unmatched flexibility and speed, helping users connect systems, automate processes, and deliver value faster than ever.
