

# CADY

## PAYCOR INTEGRATION USE CASE

### Overview

Cady brings innovation to the photography industry by capturing magazine-style images for schools and students in their six studios across Georgia and Florida. Creating a workplace that is culture-centered means recruiting, hiring and retaining the best talent, and to accomplish this Cady implemented Lever ATS recruiting software and Paycor human resources system. **TAP Innovations is a premier system integrator and improved their recruiting and new hire data management processes to streamline human resources tasks quickly and affordably.**

### Business Challenge/Problem

Recruiting and new hire data is updated in multiple business systems, including Lever ATS and Paycor. Manual and duplicate efforts to maintain data as it follows the candidate through the employment process became time-consuming and error-prone. Lack of process automation and system integration to manage employee records and timesheets drove Cady to seek an external technology partner who could also scale to meet their growing business needs.

### TAP Innovations' Solution

**TAP Innovations is a Paycor integration expert and in a matter of weeks, closed their integration gap with digital tools and automated data processes for accurate employee records across their business systems.**

- SFTP Environment setup
- Data extraction
- Paycor integration for data loads
- Ongoing customer and technical service
- Scalable solutions to support additional employees and locations

## Key Digital Tools

TAP Innovations is a premier systems integrator and customer implementations expert for HR, CRM, Financial, LMS, POS, and Healthcare (EMR and PM) software companies. Solutions are easily scalable and repeatable across multiple industries including franchises:

-  Bi-directional integrations
-  Data transformations
-  Data capture
-  Bulk data loads to transfer historical data
-  Actionable information
-  Custom application development
