CAL'S CONVENIENCE, INC.

PAYCOR INTEGRATION USE CASE FOR HISTORICAL DOCUMENTS

Overview

CAL's Convenience operates 207 Stripes convenience stores in West Texas, Oklahoma, and New Mexico. CAL's needed a precise and efficient solution to migrate employee information stored in previous HCM platforms into Paycor Perform/Payroll HR by matching employee records. Robotic Process Automation (RPA) technology quickly and affordably automates data transfer efforts and eliminates manual work associated with those tasks. **TAP Innovations is a premier system integrator and solved their data migration gap with process automation quickly and affordably!**

Business Challenge/Problem

CAL's previously utilized multiple Human Capital Management (HCM) platforms to handle HR tasks, including Paycor. Migrating the data for approximately 125,000 employee documents demanded a third-party expert that could effectively manage the data transfer. With its ability to help customers quickly collect and organize large amounts of documents, Robotic Process Automation (RPA) technology was the best solution to handle CAL's transfer needs for employee data and historical documents.

Digital Tools

TAP Innovations is a Paycor integration expert and closed their system integration gap with digital tools and new customized and automated data processes.

- Robotic Process Automation (RPA) technology

- Employee document extraction

- Employee profile matching

- Document load into Paycor

- Ongoing customer and technical service
