

# FARMERS BANK & TRUST

## PAYCOR INTEGRATION USE CASE FOR HISTORICAL DOCUMENTS

### Overview

Founded in 1906, Farmers Bank & Trust is a community bank with over 30 locations in South Arkansas, Northeast Texas, and Southeast Oklahoma. Farmers Bank needed a detailed and efficient solution to relocate employee information from Paycom into employee profiles on Paycor Perform, and sought a technology partner with proper data protection and security measures to safeguard this information. Robotic Process Automation (RPA) technology quickly and affordably automates data transfer efforts and eliminates manual work associated with those tasks. **TAP Innovations is a premier system integrator and solved their employee data migration challenges with process automation quickly and affordably!**

### Business Challenge/Problem

TAP Innovations will utilize RPA technology to ensure an estimated 25,000 employee documents are exported from Farmers Bank & Trust's previous Paycom HR system and accurately matched to their established employee profiles in Paycor. Accurate matching algorithms through RPA eliminate task errors, duplicate work, and replace manual efforts of such a large undertaking, making it the clear choice for handling their data transfer needs. Farmers Bank & Trust also required a solution that follows proper protocols in data security and protection so they can be confident employee data is safeguarded while in transit.

### Digital Tools

**TAP Innovations is a Paycor integration expert, and in a matter of weeks, closed their system integration gap with digital tools and new customized and automated data processes.**

- Robotic Process Automation (RPA) technology
- Employee document extraction
- Employee profile matching
- Document load into Paycor
- Data protection and security measures to safeguard employee data
- Ongoing customer and technical service

## TAP Innovations Solutions

TAP Innovations is a premier systems integrator and customer implementations expert for HR, CRM, Financial, LMS, POS, and Healthcare (EMR and PM) software companies. Solutions are easily scalable and repeatable across multiple industries, including franchises:

-  Bi-directional integrations
-  Data transformations
-  Data capture
-  Bulk data loads to transfer historical data
-  Actionable Information
-  Easily scalable and repeatable across franchises
