

GREAT OAKS (GO) FOUNDATION

PAYCOR INTEGRATION USE CASE

Overview

Great Oaks (GO) Foundation has a network of college preparatory charter schools across the Northeast in Connecticut, New York, New Jersey, Maryland and Delaware. An emphasis is on tutor fellows to mentor students and shape the community throughout the GO school network. To hire the most effective tutors, the GO Foundation relies on Greenhouse ATS applicant tracking and hiring software to manage applicant data. **TAP Innovations is a premier system integrator and quickly and affordably connected their core business systems to improve hiring and other business operations.**

Business Challenge/Problem

Greenhouse ATS and Paycor are core business systems that separately house GO Foundation data for new hires and employees. New hire data from Greenhouse currently lacks an integration pathway to load into Paycor for human resources management. Manual and duplicate efforts to maintain data as it follows the candidate through the employment process became time-consuming and error-prone. Process automation and system integration would replace manual work required to manage employee data across multiple systems.

TAP Innovations' Solution

TAP Innovations is a Paycor integration expert and in a matter of weeks, closed their integration gap with digital tools and automated data processes for accurate employee records across their business systems.

- SFTP Environment setup
- Data extraction
- Paycor integration for data loads
- Ongoing customer and technical service

Key Digital Tools

TAP Innovations is a premier systems integrator and customer implementations expert for HR, CRM, Financial, LMS, POS, and Healthcare (EMR and PM) software companies. Solutions are easily scalable and repeatable across multiple industries including franchises:

-  Bi-directional integrations
-  Data transformations
-  Data capture
-  Bulk data loads to transfer historical data
-  Actionable information
-  Custom application development
