

# HVAC, PLUMBING AND CONTROLS PROVIDER

## HR SOFTWARE VENDOR INTEGRATION USE CASE

### Overview

An HVAC, plumbing and controls company launched an HR software vendor for efficiency gains in payroll processes and employee weekly hours management. Using multiple systems for storing hours data and payout requires frequent data transformations to populate HR vendor templates. **TAP Innovations is a premier system integrator and automated data transformation and validation processes in less than 4 weeks!**

### Business Challenge/Problem

This service provider categorizes employee time primarily in weekly hours in their time management system. The employee time data needs to be scanned for completion and transformed to accurately populate templates and export into the HR vendor's pay grid. Looking to automate data scanning and transformations, this company chose TAP Innovations to accelerate their system launch quickly and affordably while solving their manual efforts and spreadsheets challenges.

### TAP Innovations' Solution

TAP Innovations is an integration expert and in a matter of weeks, closed their system integration gap with digital tools and new customized and automated data processes.

- SFTP environment setup
- Map earning codes between business systems
- Transform and validate data
- Data population into output file
- Automatic error notifications of incomplete data
- File export
- Customized frequency of SFTP site scan and data transformation of customer files

## Key Digital Tools

TAP Innovations is a premier systems integrator and customer implementations expert for HR, CRM, Financial, LMS, POS, and Healthcare (EMR and PM) software companies. Solutions are easily scalable and repeatable across multiple industries including franchises:

-  Bi-directional integrations
-  Bulk data loads to transfer historical data
