JANJER ENTERPRISES, INC.
PAYCOR INTEGRATION USE CASE

Overview

Janjer Enterprises, Inc. owns and operates franchises with Popeyes, IHOP and Slapfish restaurants. Transitioning from one HR system to another requires employee profiles to be immediately exported and loaded into the new Paycor HR system. **Robotic Process Automation (RPA) technology quickly and affordably automates data transfer efforts for their estimated 100,000 documents.**

Business Challenge/Problem

Janjer Enterprises is sunsetting their current HR platform to transition to Paycor for their HR needs and to support employees across their restaurant franchises. With estimated employee document counts of 100,000, Janjer needed a solution that could automatically export employee profile records from one platform and accurately load into employee profiles stored in Paycor. Robotic Process Automation (RPA) technology helps customers manage large amounts of documents quickly, and Janjer Enterprises enlisted TAP Innovations to implement this solution for their document transfer needs.

Key Digital Tools

TAP Innovations is a Paycor integration expert and in a matter of weeks, closed their system integration gap with digital tools and new customized and automated data processes.

1. Robotic Process Automation (RPA) technology
2. Employee document extraction
3. Employee profile matching
4. Document load into Paycor
5. Ongoing customer and technical service

IDEA

TAP Innovations' Solutions

TAP Innovations is a premier systems integrator and customer implementations expert for HR, CRM, Financial, LMS, POS, and Healthcare (EMR and PM) software companies. Solutions are easily scalable and repeatable across multiple industries including franchises:

- Bi-directional integrations
- Data transformations
- Data capture
- Bulk data loads to transfer historical data
- Actionable Information
- Easily scalable and repeatable across franchises
