TAP INNOVATIONS INTEGRATION SOLUTIONS
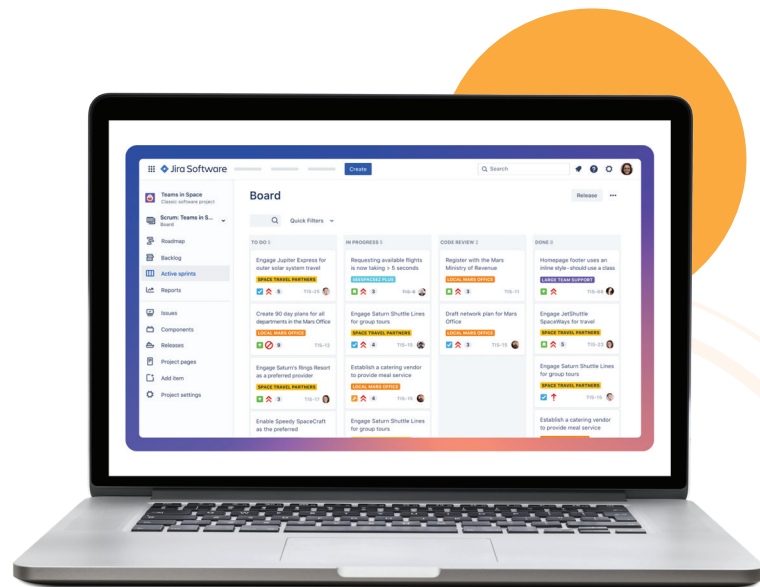

JIRA SOFTWARE SUPPORT USE CASE

Overview

Jira, an Atlassian product, is a suite of agile work management solutions that improves project management, insight and analytics for employers and teams. Many businesses rely on Jira to assist in project completions because of its collaborative and real-time tools available for enterprise project tracking. TAP Innovations is a premier system integrator and IT solutions expert that configures Atlassian products for optimal project management and collaboration through quick and affordable service solutions.

Business Challenge/Problem

Jira is a flexible and highly adopted project management tool for businesses looking to gain visibility and efficiencies in projects while increasing productivity. Without a Jira expert acting as an administrator, Jira becomes unused and managing projects becomes manual and time-consuming with increasing costs and delays.

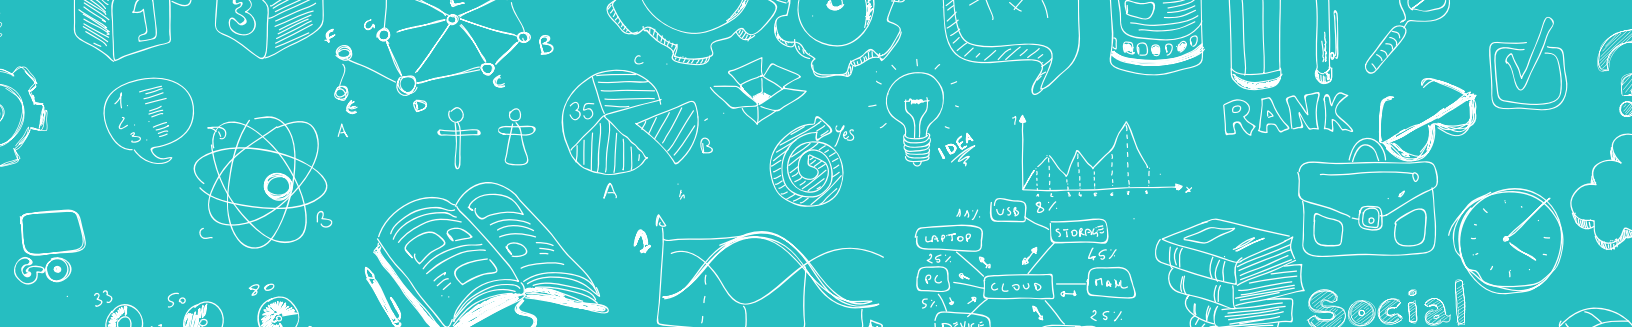

Expert Service Solutions

Through TAP Innovations, expert services are available to assist companies with establishing Jira and Atlassian product configurations to fit their project needs so customers can manage their projects more efficiently.

- **Quick to configure**! Jira can be launched within 48 hours for small teams and less complex workflows, and within one week for complex project workflows.

- **Flexible!** Jira is customized to each business' project management needs.

- **Gain project efficiencies!** Our expert services establish workflows, teams, project setups, dashboards and more for real-time collaboration.

- **Increase visibility!** Create reports for time and cost tracking plus real-time status reports.

- **Affordable and fast service!** Begin efficient project management quickly.

- **Expert knowledge!** Our team is well-versed in all Atlassian products to configure and launch collaborative solutions.

Jira Support Return on Investment (ROI)
