

# KIOLBASSA SMOKED MEATS

## PAYCOR INTEGRATION USE CASE FOR HISTORICAL DOCUMENTS

### Overview

Kiolbassa Smoked Meats is one of the fastest growing sausage brands in the nation. With employee documents stored in ADP, Kiolbassa needed an efficient and accurate solution to migrate employee information into Paycor Perform/Payroll HR platform by matching employee profile records. Robotic Process Automation (RPA) technology quickly and affordably automates data transfer efforts and eliminates manual work associated with those tasks.

**TAP Innovations is a premier system integrator and solved their data migration gap with process automation quickly and affordably!**

### Business Challenge/Problem

Kiolbassa leverages multiple Human Capital Management (HCM) platforms including ADP and Paycor to manage HR tasks for employees. Migrating data, including an estimated 10,000 employee documents between ADP and Paycor required a third party expert who could manage the data transfer effectively for Kiolbassa. Robotic Process Automation (RPA) technology helps customers manage large amounts of documents quickly, and in this case, was the best solution to manage Kiolbassa's employee document transfer needs.

### Key Digital Tools

TAP Innovations is a Paycor integration expert and in less than 4 weeks, closed their system integration gap with digital tools and new customized and automated data processes.

1. Robotic Process Automation (RPA) technology
2. Employee document extraction
3. Employee profile matching
4. Document load into Paycor
5. Ongoing customer and technical service
