LOCAL FAVORITE RESTAURANTS
PAYCOR INTEGRATION USE CASE

Overview

Local Favorite Restaurants operates a distinctive collection of restaurants and 50 locations across the U.S.including El Fenix Mexican Restaurant and Twisted Root. Managing employee data in multiple systems, including WiseTail learning management system and Paycor for HR needs requires manual efforts to replicate changes in both data environments. **TAP Innovations is a premier system integrator and in a matter of weeks solved their big system connectivity gap quickly and affordably with enterprise integration and global access to employee data!**

Business Challenge/Problem

Local Favorite Restaurants utilizes a learning management system, WiseTail, for employee updates and changes. Syncing this information with their new Paycor HR system requires data validations and format changes. System integration between WiseTail and Paycor would eliminate the need for manual interventions and spreadsheets which cause errors, duplicate information and redundant processes. Centralized access to employee data and changes enables an enterprise approach to information management for this growing collection of restaurants.
