NACHA DIRECT DEPOSIT INTEGRATION

ACH PAYROLL PAYMENT USE CASE

Overview

Businesses without a contracted payroll service company often lack an integration path to transfer employee direct deposit information to banks and financial institutions. TAP Innovations is a premier system integrator and developed a solution to solve this connection gap for companies self-submitting electronic payment transactions. **Process automation aligns payroll files with the defined National Automated Clearing House Association (NACHA) standards.**
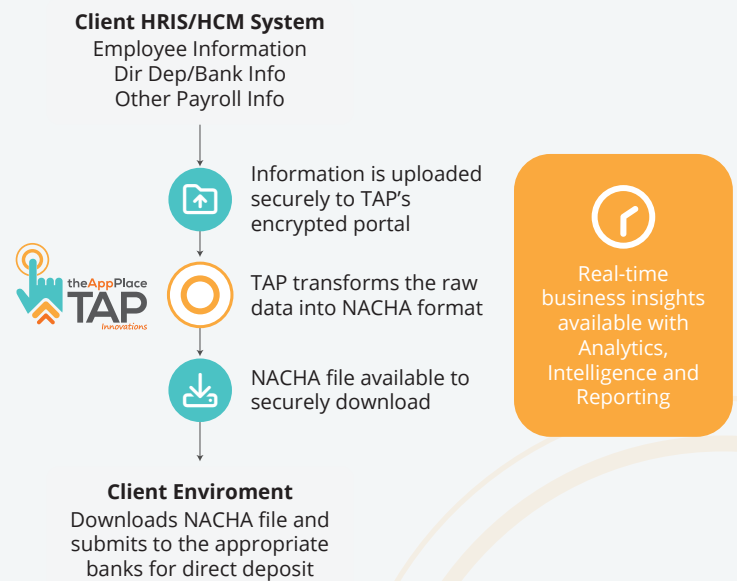

Business Challenge/Problem

Many businesses do not use a third-party payroll service due to regulatory challenges or simply choose to self-process payroll for other reasons. This leaves companies unable to submit properly-formatted payroll files to banks for employee direct deposit. Organizations who self-process payroll now have the formatting and requirements abilities to submit Payroll Direct Deposit transactions to banks quickly and efficiently. The TAP Innovations solution is repeatable and scalable to support multiple locations or franchises.

Digital Tools

TAP Innovations provides integration solutions and digital tools to increase business efficiencies and eliminate Manual Efforts and SpreadSheets (MESS) for companies that self-process direct deposit payroll.

- Employee information extraction from payroll systems

- NACHA standard file formatting

- Secure Portal for secure customer access

- Properly formatted file can be uploaded to employee banks for payroll direct deposit payment

- Flexible solution supports any Human Capital Management (HCM) system

Client HRIS/HCM System
Employee Information
Dir Dep/Bank Info
Other Payroll Info

Information is uploaded securely to TAP's encrypted portal

TAP transforms the raw data into NACHA format

NACHA file available to securely download

Client Enviroment
Downloads NACHA file and submits to the appropriate banks for direct deposit

Real-time business insights available with Analytics, Intelligence and Reporting
