

PREMIER SIRES

APPLICATION DEVELOPMENT USE CASE

Overview

Premier Sires showcases foals from elite stallions in classes and horse shows across the United States. Online nomination of foals by their owners is required to initiate show registration and approvals for classes. Current processes are manual and Premier Sires lacks a centralized database for easy access, updates and management of foals, owners and administration data. TAP Innovations is the market leader in cloud-based integration solutions and launched a targeted approach to improve their business operations and workflows.

Business Challenge/Problem

Premier Sires manages foal registrations and payments through multiple data entry points. Centralizing foal data in an easy-to-use application will help Premier Sires save, manage and report on registered foals.

Current business and technical challenges:

- Multiple points and locations of data entry
- No centralized database for foal registrations
- Inability to create lists and reports for foals
- Access to information is not limited by roles and users
- Difficulties in payment tracking
- Disrupted workflows managing foal records from registration to approval

Key Digital Tools

In a matter of weeks, TAP Innovations closed their data management gap with digital tools and automated processes to help their operations run smoothly. Premier Sires now easily manages and verifies foal data to generate approvals, registration numbers, track payments and more!

- Web-based application
- User role stratification for owners, show managers and admins
- Foal registration numbering system
- Payment integration and tracking
- Reports and analytics
- Ongoing customer and technical service

TAP Innovations' Solution

TAP Innovations is a premier systems integrator and customer implementations expert for thousands of users. Solutions are easily scalable and repeatable across multiple industries including franchises:

-  Bi-directional integrations
-  Bulk data loads to transfer historical data
-  Data transformations
-  Actionable Information
-  Data capture
-  Easily scalable and repeatable across franchises
