

PTW ENERGY SERVICES

PAYCOR INTEGRATION USE CASE

Overview

PTW Energy Services (PTW) offers worldwide design, engineering, project management and construction solutions with over 2,500 talented people supporting global customers. Headquartered in Calgary, Alberta, Canada, PTW implemented Paycor for HR management and quickly found extensive manual efforts extracting data from multiple systems. **TAP Innovations' amazing integration expertise and talent enables PTW to automate data extraction from Paycor in a standard way and location. This standardized information can be used by other PTW systems, departments and functions for a global view of employee records.**

Business Challenge/Problem

PTW lacks a single source of truth for employee data. Critical information like names, employee ID's, contact information, department and locations is currently managed sporadically and through highly inefficient processes. Looking to automate data capture and access for streamlined employee onboarding and offboarding, PTW turned to TAP Innovations.

TAP Innovations' Solution

TAP Innovations is a premier system integrator and solved PTW's employee data challenges in a matter of weeks with system integration and customized automated processes.

1. Paycor integration for all employee changes
2. Data extraction of all employee details as requested
3. Data validation
4. Bad record identification
5. Automated alerts for data correction action
6. Record processing and export
7. Customize frequency for new automated processes

Additional Services:

- Convert historical data
- Assess system integration gaps
- Fractional / Full-Time Staffing

Key Digital Tools

TAP Innovations is a premier systems integrator and customer implementations expert for HR, CRM, Financial, LMS, POS, and Healthcare (EMR and PM) software companies. Solutions are easily scalable and repeatable across multiple industries including franchises:

-  Bi-directional integrations
-  Bulk data loads to transfer historical data
-  Data transformations
-  Actionable Information
-  Data capture
-  Easily scalable and repeatable across franchises
