Restaurant & Hospitality
Business Optimizations

Overview

TAP's offering include custom application development, Application Integration Services, and cutting-edge BI analytics designed for restaurant and hospitality owners. By seamlessly integrating various systems, TAP streamlines operations, lowers costs, and boosts productivity for your business. With their specialized solutions, manual processes are eliminated, leading to enhanced data insights, better decision-making, and increased ROI. Don't miss the chance to unlock your restaurant's full potential with TAP's all-encompassing approach. Embrace the power of BI analytics and experience the future of streamlined operations today.

Business Problems

1. Lack of seamless integration between application systems (e.g., POS, inventory management, payroll, time tracking) leads to manual workarounds and data discrepancies.
2. Synchronized data between employee scheduling and payroll systems is missing, affecting accurate labor tracking and wage management.
3. Relying on manual efforts and spreadsheets causes inefficient data entry, processing, and analysis.
4. Limited visibility into crucial business metrics and insights due to the absence of custom applications.
5. Absence of BI analytics results in limited access to critical business insights and data-driven decision-making.

TAP Solutions, Services, & ROI

1. Improved operational efficiency and time savings by eliminating manual workarounds and data discrepancies resulting from seamless integration between application systems.
2. Enhanced labor tracking and wage management through accurate and synchronized data between employee scheduling and payroll systems, leading to better resource allocation and cost control.
3. Increased productivity and reduced errors in data entry, processing, and analysis by replacing manual efforts and spreadsheets with automated solutions.
4. Deeper understanding of business performance and trends with access to crucial business metrics and insights through custom applications.
5. Enhanced data-driven decision-making capabilities and strategic planning enabled by the implementation of BI analytics, leading to better ROI and business growth.

Key Digital Tools

Automated data integrations from time tracking to payroll or employee demographic onboarding and offboarding synchronization between systems has never been easier. Automate your manual efforts today and add days and weeks back to your core business objectives!

Tools Used: C#, ASP MVC.net, SQL Server, APIs, SSIS, Azure Cloud Services, Multi-Tenant, Entity Framework, Power BI, ClicData, MS Power BI, MS SQL Server, SSIS and more...

For restaurant and hospitality business owners, TAP's Digital Toolbox offers a suite of solutions designed to address their unique challenges and improve operations:

1. **Application Integration Services:** From TAP's Digital Toolbox, their expertise bridges the gaps between different systems, ensuring seamless data flow and eliminating manual workarounds. This streamlines processes and improves efficiency.
2. **Employee Scheduling and Payroll Synchronization:** TAP's Digital Toolbox includes solutions to synchronize employee scheduling and payroll systems, accurately tracking labor hours, wages, and schedules. This simplifies workforce management and ensures accurate payroll processing.
3. **Custom Application Development:** Within TAP's Digital Toolbox, you'll find custom application development services that automate workflows, streamline data integration, and provide powerful analytics capabilities. By replacing manual processes, this enables businesses to work more efficiently and make data-driven decisions.
4. **BI Analytics:** empowers restaurants and hospitality owners with comprehensive insights, including sales trends, inventory management, customer behavior, labor analytics, operational efficiency, financial analysis, risk management, market trends, and real-time reporting, enhancing decision-making and driving business success.

By leveraging TAP's Digital Toolbox, restaurant and hospitality owners can reduce administrative burdens, enhance productivity, and achieve significant cost savings. TAP unlocks the full potential of businesses, driving success in the competitive industry.
