

# A PANERA BREAD FRANCHISE (AKA ROLLING DOUGH ENTERPRISES)

## PAYCOR INTEGRATION USE CASE

### Overview

Panera Bread (aka Rolling Dough) uses multiple systems to manage employee time and attendance, payroll and recordkeeping including Paycor for human resources management. TAP Innovations integrated this franchise's Point of Sale (POS) time and attendance system with Paycor so employee punches and tips automatically feed into Paycor for timely payroll. TAP is a preferred Paycor integration partner and was able to quickly and cost-effectively save 8 weeks in implementation time.

### Problem

Lack of integration and process automation into the time and attendance system caused several challenges in employee data management and timely payout.

1. Limited to no visibility into time and data keeping across multiple locations
2. Error-prone tasks of managing employee time and tip data manually through spreadsheets
3. Paycor implementation delay plus added cost and resources due to manual efforts of extracting and loading data

### TAP Solution

TAP Innovations automates the data connectivity process between systems to make time and attendance tracking more effective, efficient, and timely for payroll. TAP built an integration program with the point of sale (POS) system that does the following:

1. Retrieve punch data and tips files daily
2. Develop data transformation criteria, such as lookup tables
3. Create integration program to feed into the time and attendance system
4. Automatic process error notifications
5. Results tracking

### TAP Integration Solutions:

-  Remove reliance on spreadsheets
-  Organize recordkeeping, insight into global financials
-  Improve employee satisfaction
-  Provide global analytics and reporting capabilities
-  Are available through any web and mobile device
-  Can be easily replicated for other franchises

## Key Digital Tools

Time and Data Automation Solution is scalable and supports added locations, systems, geographic locations and teams. This solution eliminates the challenges associated with employee relations, information systems, compliance and financials.

**BONUS:** New hires and terminations are automatically determined, and the HR System is notified!

TAP has connected thousands of users to accurate, actionable information in real-time. TAP success spans the HR industry and beyond with cloud-based solutions:

- Bi-directional integrations transform data
- Data transformations
- Data capture
- Bulk data loads to transfer historical data
- Actionable Information

TAP provides a scalable solution to support time tracking and recordkeeping across additional restaurant locations, and reporting capabilities so users can accelerate or pivot business plans.
