SPINAL ELEMENTS
PAYCOR INTEGRATION USE CASE

Overview

Spinal Elements is a leading designer, developer, manufacturer and marketer of innovative medical devices used in spinal surgical procedures. Employee profiles are being migrated from one HR system to another and approximately 14,000 documents will need to be loaded into Paycor. Robotic Process Automation (RPA) technology quickly and affordably automates data transfer efforts. **TAP Innovations is a premier system integrator and in 4 weeks solved their data migration gap with enterprise integration and access to employee data!**

Business Challenge/Problem

Spinal Elements needs to transfer employee documents from one HR system to another. With estimated employee document counts of 14,000, Spinal Elements needed a solution that could automatically export employee profile records from one platform and accurately load into employee profiles stored in Paycor. Robotic Process Automation (RPA) technology helps customers manage large amounts of documents quickly. Spinal Elements chose TAP Innovations to implement this solution for their document transfer needs.

Key Digital Tools

TAP Innovations is a Paycor integration expert and in a matter of weeks, closed their system integration gap with digital tools and new customized and automated data processes.

1. Robotic Process Automation (RPA) technology
2. Employee document extraction
