

THE KITCHEN RESTAURANT GROUP

PAYCOR INTEGRATION USE CASE

Overview

The Kitchen Restaurant Group is a family of restaurants based in Boulder, CO and needs to centralize employee records, data management and changes across sites and locations. Launching Paycor to streamline HR processes, The Kitchen Restaurant Group chose TAP Innovations to integrate their main business systems with affordable and scalable solutions. **TAP Innovations is a premier system integrator and in a matter of weeks solved their big system connectivity gap with enterprise integration and access to employee data!**

Business Challenge/Problem

The Kitchen Restaurant Group utilizes a learning management system, WiseTail, for employee updates and changes. Syncing this information with their new Paycor HR system requires data validations and format changes. System integration between WiseTail and Paycor would eliminate the need for manual interventions and spreadsheets which cause errors, duplicate information and redundant processes. Centralized access to employee data and changes enables an enterprise approach to information management for this growing family of restaurants.

Key Digital Tools

TAP Innovations is a Paycor integration expert and in a matter of weeks, closed their system integration gap with digital tools and new customized and automated data processes.

- SFTP environment setup
- Data extractions
- Data validation
- Paycor integration
- WiseTail integration
- Output file standardization
- Ongoing customer and technical service
