

# URSUS, INC

## PAYCOR INTEGRATION USE CASE

### Overview

Ursus provides staffing and consulting services for cloud, business, IT, marketing and creative needs. Ursus manages job applicant information in JobDiva, an application tracking system (ATS). System and information integration to Paycor would allow a seamless exchange of applicant records for new employees marked or selected for onboarding. Ursus looked to eliminate their manual efforts and spreadsheets quickly and affordably. **TAP Innovations is a premier system integrator and was able to integrate their business systems in less than 4 weeks!**

### Business Challenge/Problem

Current workflows and data processes require Ursus to identify and transfer their applicant records flagged for onboarding and other relevant status changes. Transferring the candidate's information from JobDiva to Paycor without creating duplicate records is a manual and time-consuming task. TAP Innovations integrated their business systems with custom solutions and digital tools for automated data workflows and optimal process efficiencies. Affordable, easy to implement and quick to scale solutions make TAP Innovations a winning choice for system integration needs.

### Key Digital Tools

TAP Innovations is a Paycor integration expert and closed their system integration gap with affordable digital tools and customized automated processes.

- SFTP environment setup
- Custom integration program to identify and transfer candidate records
- Duplicate record check
- Customized frequency for new automated processes
- Ongoing service and maintenance

## TAP Innovations' Solution

TAP Innovations is a premier systems integrator and customer implementations expert for HR, CRM, Financial, LMS, POS, and Healthcare (EMR and PM) software companies. Solutions are easily scalable and repeatable across multiple industries including franchises:
