Overview

Vancrest is a regional full service senior health care provider. Staff scheduling is managed in an application that is not currently integrated into their Paycor Human Capital Management (HCM) platform, causing manual efforts to upload the daily schedule information. **TAP Innovations is a premier system integrator and was chosen to integrate their core business systems so process automation can streamline business operations.**

Business Challenge/Problem

Main business systems are critical for Vancrest business operations and human resources functions. Employee staff schedules are managed in SchedulePop which is not currently integrated into their Paycor HCM system. Manual efforts to import or re-enter schedule information cause duplicate work and error-prone processes.

Key Digital Tools

TAP Innovations is a Paycor integration expert and in a matter of weeks, closed their integration gap with digital tools and automated data processes for accurate staff schedules across their business systems.

1. SFTP Environment setup
2. SchedulePop integration
3. Daily load of staff schedules
4. Ongoing customer and technical service
